

evmc::HostInterface

```
graph BT; evmc::Host --> evmc::HostInterface
```

A UML class diagram illustrating inheritance. The class `evmc::HostInterface` is at the top, represented by a white rectangle with a black border. The class `evmc::Host` is at the bottom, represented by a gray rectangle with a black border. A blue arrow points from the top of `evmc::Host` to the bottom of `evmc::HostInterface`, indicating that `evmc::Host` inherits from `evmc::HostInterface`.

evmc::Host
